Additional notes

If for example you are on 15 hours funding and opt out of consumable resources, this will be a reduction of £8.67 per month but you will be asked to provide additional items each month to ensure consistency in the activities we provide for all children. We can't for example exclude your child from an activity because you have opted out of the consumable charge and therefore that activity wouldn't be available to them, it just wouldn't be fair. We will have a list of items that we regularly need and use and request you supply 2 specific items each month. This could be a bunch of flowers, teabags, food colouring, shaving foam etc.

If for example you are on 15 hours funding and opt out of nappies and creams this will be a reduction of £15.17 per month but you will be asked to provide nappies, wipes, creams, nappy sacks and required to take your wet and soiled nappy waste home. It seems ridiculous, but the funding does not cover any of these items so we can either include them as an additional charge (or in our all-inclusive package) or you opt out and supply as above.

More information available in our Voluntary Contribution Policy

Please see our Packed Lunch Policy for all information regarding food brought into the nursery.

All prices valid from 1st April 2026 and are subject to change
